

## A Financial Literacy Learning Tool

### Description

**Wi\$eMoney**® is an interactive, reusable, team-based learning tool which deals with banking, investing, credit and financing, safety and identity protection, planning and budgeting, and financial responsibility. Although Wi\$eMoney® functions like a traditional board game, it is in fact another form of learning using action learning, problem-based learning, and team-based learning. Players also practice communication and team skills as they work together to solve problems and answer questions. Effective for all learning and teacher styles, the game format builds awareness and helps internalize the learning, leading to behavior change.

**Wi\$eMoney**® lets teams:

- Learn, discuss, and solve problems together by analyzing options
- Face dynamic real-world situations and decision consequences
- Receive feedback as they make choices and remain engaged and involved

**Wi\$eMoney**® facilitates thinking and learning about:

- Personal financial management and responsibility
- Financial planning, budgeting, banking, investing, credit, and identity protection
- Checking accounts and registers
- Financial trade-offs and decisions

### Uses

As a stand-alone tool or integrated into your existing program, you can:

- Create questions as curriculum needs change
- Add energy and excitement to current and new programs
- Use to review and assess retention and knowledge of behavior changes
- Integrate sections into a standard curriculum
- Use the questions alone to spark discussion and identify areas for growth
